

موضوعات قابل تحقیق و پژوهش در زمینه پایگاه داده (تحقیقاتی):

Active Database
Benchmarking and Performance Evaluation
Transaction Management
Query Processing
Query Optimization and Multiple Query Optimizations
Database Administration
Database Indexing and Search
Distributed Database
Multi Database
Grid Database
Mobile Database
Sensor Database
Data Stream
Fuzzy Database
Multimedia Database
Spatial and Temporal Database
XML Database
Security in Database
Real-Time Database
Reliable and Robust Database
Parallel Database
P2P Data Management
Replication in Database
Caching
Profile-Based Data Management and Data Quality

موضوعات قابل تحقیق و پژوهش در زمینه پایگاه داده (کاربردی):

Database Services
Database Application
Database Design
Database Evolution
Database Evaluation
Database Migration
Data Mining
Data Warehouse
Data Quality and Semantic
Information Filtering and Integration and Retrieval
Meta-Data Management
User Interface and Visualization
Web Replication and Caching
E-Commerce
Bio-Informatics/ Life Sciences
